The 48th (Inter) National Systems Conference (NSC) is being organized by Dayalbagh Educational Institute (DEI) in collaboration with Systems Society of India (SSI) on 15 – 17 September 2025. The theme for this conference is **Regenerative Systems for Equitable, Resilient and Sustainable Future**. Regenerative systems foster reinforcing cycles of improvement both within themselves and their surrounding environment especially when considering between people and planet. These systems in general emphasize mutual, reciprocal connections among their elements to promote collective growth. This approach supports the flourishing and well-being of all elements through a co-evolutionary process that values interdependence and cooperative relationships. The theme of the conference therefore seeks to provide a holistic approach with an understanding of the larger objective of well-being using such regenerative systems.

We invite high quality original contributions in the broad areas of systems and engineering including but not limited to:

Energy Systems Esoteric Systems
Environment Systems Transportation Systems
Education Systems Mathematical Systems
Information & Communication Systems Biological Systems
Healthcare Systems Quantum and Nano Systems
Agriculture & Dairying Systems Consciousness based Systems
Smart Villages/Cities Literary and Social Systems
Values and Quality based Systems Super-intelligent Systems

The conference will be held jointly along with the 7th International Dayalbagh (Art) Science (& Engineering) of (Evolutionary/Re-Evolutionary) Consciousness (**DSC**) from 15 – 17 September 2025. Participants will be able to attend both the events

All submissions will be handled electronically via the Microsoft's Conference Management Toolkit (CMT) submission portal <https://cmt3.research.microsoft.com/DSC-NSC2025> Please note that you will have to select NSC2025 when you create new submission.

One copy of the full paper not exceeding 6 pages, in single column MS Word format (Times New Roman, font size 10 pt) should be submitted in the Microsoft CMT portal.

Selected papers from accepted papers in the conference will be published in the Systems Society of India's journal PARITANTRA Journal of Systems Science and Engineering
